GUIDE TO PATIENT PORTAL

Below are the instructions to access your personal demographic and medical information that we have on file for you. To ensure a lesser wait time and less paperwork, please follow the below instructions to access your patient portal. Should you have any questions please call the office.

Using the Patient Portal, you can view your records, enter medical information, and send messages to your provider.

Logging On

1. Type the URL below into a Mozilla Firefox browser window. **DO NOT** type *www* or *https* in front of the URL.
Note: If you do not currently have Mozilla Firefox on your computer, you can download it for free. We do not recommend using any other browsers.

Esterson.ema.md

2. Log in with the username and password listed below. Please call the office to obtain your username/password.
